| Length (mm) | 2000 | 2000 | 2000 | 2000 |

The Alusthetic AluFlex aluminium edging system in 2 metre lengths which come complete with joints and earth nails.

Alusthetic AluFlex aluminium edge system is ideal for:

- Resin bound stone installations that need a sturdy aesthetic single edge profile, this would be the Aluflex 64mm edge.
- The 19mm edge sits on EcoGrid permeable base system for resin bound stone to create patterns and shapes
- Lawn Aluminium edging
- Border edging
- Sedum green roof tray edging to create a clean, sturdy front face
- EcoGrid grid system and sub-base retention, this would be the Aluflex 150mm system

The Alusthetic Aluflex system is easy to fit and provides a professional finish to any EcoGrid installation or as a stand-alone product. The edge comes in lengths of 2 metres (other lengths are available on special order.) Each length is joined to the next with an Aluflex Aluminium jointer which slots in to the back of the lengths creating seamless profiles. The Alusthetic Aluflex edge can be laid under EcoGrid permeable grids or outside.
