

Blue/Grey Limestone Setts New Sawn & Tumbled Finish

If you are considering a new driveway, path or any feature these gorgeous tumbled limestone setts will look amazing. Colour consistent, hardwearing and fantastic value. Exceptional quality.

The majority of the natural stone setts can be butt jointed however, we do recommend a minimum jointing gap of 5mm. We suggest mixing paving/setts from crates prior to installation. Always order an additional 5-10% to allow for wastage and cuts. All-natural stone will vary in colour, texture and natural markings.
