sales@waltherstrongandco.com

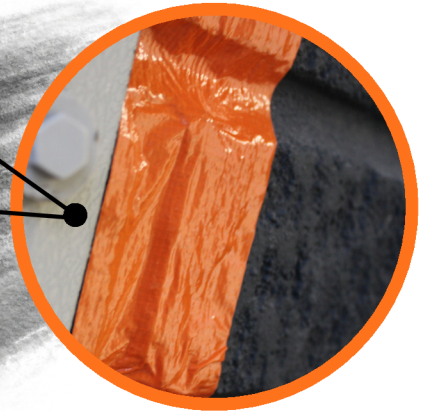

Our premium conformable tape is engineered for both rough and smooth surfaces, making it ideal for demanding applications.

It securely holds plastic sheets in place during rendering, even in strong winds and heavy weather conditions.

With a specialised adhesive, it leaves no residue, guaranteeing clean surfaces and strong, straight edges for excellent rendering and colour separation.

70%
more adhesive on the
tape is in contact with
the surface over
normal duct tape
